

HUB PROJECT SHEET

# PARRAMATTA AQUATIC CENTRE

The Parramatta Aquatic Centre is a new, inclusive community hub centred around the pleasure of swimming in a part setting. The design comprises swimming areas arranged around the ring, carved into the topography with the health and wellness facilities acting as a buffer to Park Parade.

HUB was delighted to supply a network of its SMART. POLEs to support the use of PA speakers, luminaires, banner artwork and CCTV at the outdoor 50-metre, 10-lane outdoor swimming pool.
